Notes to the Condensed Interim Consolidated Financial Statements

For the three and six months ended June 30, 2021 and 2020

(Expressed in U.S. dollars)

1. INCORPORATION AND GOING CONCERN

(a) Business description

Neovasc Inc. (“Neovasc” or the “Company”) is a company incorporated and domiciled in Canada. The Company was incorporated as Medical Ventures Corp. under the Company Act (British Columbia) on November 2, 2000 and was continued under the Canada Business Corporations Act on April 19, 2002. On July 1, 2008, the Company changed its name to Neovasc Inc. Neovasc is the parent company.

The condensed interim consolidated financial statements of the Company as at June 30, 2021 and for the three and six months ended June 30, 2021 and 2020, comprise the Company and its subsidiaries, all of which are wholly owned. The Company’s principal place of business is located at Suite 5138 – 13562 Maycrest Way, Richmond, British Columbia, V6V 2J7 and the Company’s registered office is located at Suite 2600 – 595 Burrard Street, Vancouver, British Columbia, V7X 1L3, Canada. The Company’s shares are listed on the Toronto Stock Exchange (TSX: NVCN) and the Nasdaq Capital Market (NASDAQ: NVCN).

Neovasc is a specialty medical device company that develops, manufactures and markets products for the rapidly growing cardiovascular marketplace. Its products include the Neovasc Reducer™ (“Reducer”), for the treatment of refractory angina, which is not currently commercially available in the United States (6 U.S. patients have been treated under Compassionate Use) and has been commercially available in Europe since 2015, and the Tiara™ (“Tiara”), for the transcatheter treatment of mitral valve disease, which is currently under clinical investigation in the United States, Canada, Israel and Europe.

(b) Corporate reorganization

On June 20, 2021, the Company announced that it had paused all product development activities on the Tiara TF device. Concurrent with this decision the Company terminated 40% of its staff and took a provision for obsolete leasehold improvements and equipment related to these activities.

(c) Going concern and uncertainty

As at June 30, 2021, the Company had approximately \$63.3 million in cash and cash equivalents being sufficient cash on hand to extend the operations of the Company for up to three years at the current anticipated burn rate. However, given the FDA’s adverse panel decision and “not approvable” letter for the Reducer, and the announcement that the Company is unable to receive a European CE mark (“CE Mark”) under the previous Medical Device Directive regulations (“MDD”), it is possible that the Company will initiate programs that will require additional significant expenditures and that the increasing cash needs of the Company could shorten the time the proceeds will meet the requirements of the Company. In addition, COVID-19 has impacted the Company’s ability to generate revenue, enroll patients in clinical studies, complete certain Tiara TF bench testing milestones on its expected schedule, and raise capital (the Company can give no assurance that it will be able to obtain the additional funds needed in the future, on terms agreeable to the Company, or at all). These circumstances indicate the existence of material uncertainty and cast substantial doubt about the Company’s ability to continue as a going concern.

The Company will re-evaluate the going concern risk at each reporting period and will consider removing the going concern and uncertainty note when the Company can depend on the profitable commercialization of its products or is confident of obtaining additional debt, equity or other financing to fund ongoing operations until profitability is achieved.

These condensed interim consolidated financial statements do not reflect adjustments that would be necessary if the going concern assumption were not appropriate. Should the Company be unable to obtain additional capital in the future and the Company’s ability to continue as a going concern be impaired, material adjustments may be necessary to these condensed interim consolidated financial statements.

(d) Share consolidation (reverse stock split)

On September 18, 2018, the Company effected a share consolidation (reverse stock split) of its issued and outstanding common shares in the capital of the Company (“Common Shares”) on the basis of one post-consolidation Common Share for every one hundred pre-consolidation Common Shares. On June 25, 2019, the Company effected a share consolidation (reverse stock split) of its issued and outstanding Common Shares the basis of one post-consolidation Common Share for every ten pre-consolidation Common Shares. All references in these condensed interim consolidated financial statements to Common Shares and options have been retroactively adjusted to reflect the share consolidations. The aggregate principal amount of the 2017 Notes and the 2019 Notes (as defined below) were not affected by the consolidations, but the Common Shares issuable upon conversion of the 2017 Notes and 2019 Notes will be adjusted proportionally to each share consolidation ratio.

1. INCORPORATION AND GOING CONCERN (continued)

(e) Nasdaq listing

On August 22, 2019, the Company received written notification from the Nasdaq Listing Qualifications Department notifying the Company that it was not in compliance with the \$35 million minimum market value requirement set forth in the Nasdaq Marketplace Rules. In accordance with Nasdaq Listing Rule 5810(c)(3)(C), the Company was provided 180 calendar days, or until February 17, 2020, to regain compliance. The Company did not regain compliance by February 17, 2020. On February 19, 2020, the Company received notice from the Listing Qualifications Staff (the "Staff") of The Nasdaq Stock Market LLC ("Nasdaq") indicating that the Staff had determined to delist the Company's common shares from Nasdaq unless the Company requests a hearing before the Nasdaq Hearings Panel. On February 26, 2020, the Company requested such a hearing and the date of the hearing was set by the Nasdaq for April 2, 2020. On April 30, 2020, the Panel granted the Company's request for an extension through August 17, 2020 to evidence compliance with the \$35 million minimum market value of listed securities requirement for continued listing on the Nasdaq. On June 25, 2020, the Nasdaq Notice confirmed that the Company had regained compliance with Listing Rule 5550(a)(2) pursuant to Listing Rule 5810 for continued listing on the Nasdaq.

On December 10, 2020, the Company received written notification from the Nasdaq Listing Qualifications Department notifying the Company that it was not in compliance with the \$35 million minimum market value requirement set forth in the Nasdaq Marketplace Rules. In accordance with Nasdaq Listing Rule 5810(c)(3)(C), the Company was provided 180 calendar days, or until June 8, 2021, to regain compliance. On February 25, 2021, the Company announced that it had received written notification from the Nasdaq notifying the Company that it had regained compliance with the minimum market value requirement under Nasdaq Listing Rule 5550(b)(2) pursuant to Nasdaq Listing Rule 5810 for continued listing on the Nasdaq.

On December 14, 2020 the Company received written notification from the Nasdaq Listing Qualifications Department notifying the Company that it was not in compliance with the \$1.00 minimum bid price requirement set forth in the Nasdaq Marketplace Rules. In accordance with Nasdaq Listing Rule 5810(c)(3)(A), the Company was provided 180 calendar days, or until June 14, 2021, to regain compliance. On February 9, 2021, the Company announced that it had received written notification from the Nasdaq notifying the Company that it had regained compliance with the minimum bid price requirement under Nasdaq Listing Rule 5550(a)(2) pursuant to Nasdaq Listing Rule 5810 for continued listing on the Nasdaq.

On May 25, 2021 the Company received written notification from the Nasdaq Listing Qualifications Department notifying the Company that it was not in compliance with the \$1.00 minimum bid price requirement set forth in the Nasdaq Marketplace Rules. In accordance with Nasdaq Listing Rule 5810(c)(3)(A), the Company was provided 180 calendar days, or until November 22, 2021, to regain compliance.

(f) Impacts of COVID-19 pandemic

The Company is subject to risks and uncertainties as a result of the COVID-19 pandemic. The extent of the impact of the COVID-19 pandemic on the Company's business is difficult to predict, as the response to the pandemic evolves on a country by country basis. Furthermore, capital markets and economies worldwide have also been disrupted by the COVID-19 pandemic, and it is possible that it could cause a local and/or global adverse economic events. Such economic disruption could have a material adverse effect on the Company's business.

The severity of the impact of the COVID-19 pandemic on the Company's business will depend on a number of factors, including, but not limited to, the duration and severity of the pandemic and the extent and severity of the impact on the Company's customers, all of which are uncertain and cannot be predicted. As at June 30, 2021, the Company has seen a marked impact on Reducer revenues due to restrictions on elective procedures which included Reducer implants. Furthermore, the Company's recruitment to clinical trials and studies continues to be on temporary hold, or are enrolling slower than expected, due to the pandemic restrictions and the Company's ability to complete certain Tiara bench testing milestones on our expected schedule has been impacted and could be impacted further in the future if COVID restrictions increase again.

The Company's future results of operations and liquidity could be adversely impacted by a decrease in Reducer sales, delays in payments of outstanding receivable amounts beyond normal payment terms, supply chain disruptions and uncertain demand, and the impact of any initiatives or programs that the Company may undertake to address financial and operational challenges faced by its customers. As of the date of issuance of these condensed interim consolidated financial statements, the extent to which the COVID-19 pandemic may further materially impact the Company's financial condition, liquidity, or results of operations is uncertain.

Notes to the Condensed Interim Consolidated Financial Statements

For the three and six months ended June 30, 2021 and 2020

(Expressed in U.S. dollars)

2. BASIS OF PREPARATION

(a) Statement of compliance with IFRS

These condensed interim consolidated financial statements are prepared in accordance with International Accounting Standard ("IAS") 34 Interim Financial Reporting, as issued by the International Accounting Standards Board ("IASB"), using the accounting policies consistent with the Company's annual consolidated financial statements for the years ended December 31, 2020, 2019 and 2018. These condensed interim consolidated financial statements should be read in conjunction with the Company's audited annual consolidated financial statements for the years ended December 31, 2020, 2019 and 2018 and the accompanying notes included in those financial statements. For a full description of accounting policies, refer to the audited annual consolidated financial statements of the Company for the years ended December 31, 2020, 2019 and 2018.

The results for the three and six months ended June 30, 2021 may not be indicative of the results that may be expected for the full year or any other period.

(b) Basis of consolidation

The condensed interim consolidated financial statements include the financial statements of the Company and its wholly-owned subsidiaries, Neovasc Medical Inc., Neovasc Tiara Inc., Neovasc (US) Inc., Neovasc Medical Ltd., B-Balloon Ltd. (which is in the process of being voluntarily liquidated), Neovasc GmbH, and Neovasc Management Inc. All intercompany balances and transactions have been eliminated upon consolidation.

(c) Presentation of financial statements

The Company has elected to present the 'Statement of Comprehensive Income' in a single statement.

3. SIGNIFICANT ACCOUNTING POLICIES

The condensed interim consolidated financial statements have been prepared in accordance with the accounting policies adopted in the Company's most recent annual consolidated financial statements for the years ended December 31, 2020, 2019 and 2018.

4. MANAGING CAPITAL

The Company's objectives, when managing capital, are to safeguard cash as well as maintain financial liquidity and flexibility in order to preserve its ability to meet financial obligations and deploy capital to grow its business. In the definition of capital, the Company includes equity and the convertible notes. There has been no change in the definition since the prior year.

The Company's financial strategy is designed to maintain a flexible capital structure consistent with the objectives stated above and to respond to business growth opportunities and changes in economic conditions. In order to maintain or adjust its capital structure, the Company may issue new shares, new units or new debt (secured, unsecured, convertible and/or other types of available debt instruments). For the three and six months ended June 30, 2021, there were no changes in the Company's capital management policy.

The capital of the Company is comprised of:

	June 30, 2021	December 31, 2020
2019 Convertible Notes	\$ 6,583,528	\$ 6,195,357
2020 Convertible notes, warrants and derivative warrant liabilities	2,115,254	1,522,054
2021 Derivative warrant liabilities	1,745,600	-
Equity	63,457,764	1,977,517

5. FINANCIAL RISK MANAGEMENT

(a) Fair value estimation

The fair value hierarchy establishes three levels to classify fair value measurements based upon the observability of significant inputs used in the valuation techniques. The three levels of the fair value hierarchy are described below:

Level 1 | Quoted prices (unadjusted) in active markets for identical assets or liabilities

Level 2 | Inputs other than quoted prices included in level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices)

Level 3 | Inputs for the assets or liability that are not based on observable market data (that is, unobservable inputs)

The following table sets forth the Company's financial assets and liabilities measured at fair value on a recurring basis by level within the fair value hierarchy as at June 30, 2021 and December 31, 2020. As required by IFRS 13, assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

As at December 31, 2020:

	Level 1	Level 2	Level 3	Total
Financial liabilities at fair value through profit and loss				
2019 Convertible Notes	\$ -	\$ -	\$ 6,195,357	\$ 6,195,357
2020 Convertible notes, warrants and derivative warrant liabilities	\$ -	\$ -	\$ 9,117,147	\$ 9,117,147

As at June 30, 2021:

	Level 1	Level 2	Level 3	Total
Financial liabilities at fair value through profit and loss				
2019 Convertible Notes	\$ -	\$ -	\$ 6,583,528	\$ 6,583,528
2020 Convertible notes, warrants and derivative warrant liabilities	\$ -	\$ -	\$ 7,645,581	\$ 7,645,581
2021 Derivative warrant liabilities	\$ -	\$ -	\$ 1,745,600	\$ 1,745,600

Presentation of the fair values of the 2020 Convertible notes, warrants and derivative warrant liabilities and 2021 Derivative warrant liabilities are gross of the deferred loss.

The carrying amounts of financial assets and financial liabilities in each category are as follows:

	June 30, 2021	December 31, 2020
Assets at amortized cost		
Cash and cash equivalents	\$ 63,294,878	\$ 12,935,860
Accounts receivable	1,213,450	987,057
Restricted cash	483,714	470,460
Assets at amortized cost	\$ 64,992,042	\$ 14,393,377
Other financial liabilities at amortized cost		
Accounts payable and accrued liabilities (current)	\$ 6,422,130	\$ 7,243,500
Financial liabilities at fair value through profit and loss		
2019 Convertible Notes (current)	\$ 38,633	38,633
2019 Convertible Notes (non-current)	6,544,895	6,156,724
2020 Convertible Notes (current)	37,839	37,525
2020 Convertible notes, warrants and derivative warrant liabilities (non-current)	7,607,742	9,079,622
2021 Derivative warrant liabilities	1,745,600	-
	\$ 22,396,839	\$ 22,556,004

The carrying amounts of cash and cash equivalents, accounts receivable, restricted cash and accounts payable and accrued liabilities are considered a reasonable approximation of fair value due to their short-term nature.

5. FINANCIAL RISK MANAGEMENT (continued)

(b) Foreign exchange risk

A portion of the Company's revenues are derived from product sales in Europe, denominated in Euros. Management has considered the stability of the foreign currency and the impact a change in the exchange rate may have on future earnings during the forecasting process. The Euro represents approximately 47% of revenues for the three and six months ended June 30, 2021, (three and six months ended June 30, 2020: 49%). A 10% change in the foreign exchange rates for the Euro for foreign currency denominated accounts receivable will impact net income as at June 30, 2021 by approximately \$12,259 (as at June 30, 2020: \$9,199), and a similar change in foreign currency denominated accounts payable, which are denominated in Canadian dollars and Euros will impact net income by approximately \$6,730 and \$34,695 respectively, as at June 30, 2021 (as at June 30, 2020: \$88,314 and \$133,168 respectively). A similar change in foreign currency denominated cash and cash equivalents, and restricted cash, which are denominated in Canadian dollars and Euros will impact net income by approximately \$101,270 and \$74,787, respectively, as at June 30, 2021 (as at June 30, 2020: \$126,723 and \$45,398 respectively). The Company does not hedge its foreign exchange risk.

(c) Interest rate risk

The Company is not exposed to material cash flow interest rate risk on fixed rate cash balances, and short-term accounts receivable, accounts payable, 2019 Notes and 2020 Notes that have fixed interest terms.

(d) Liquidity risk

As at June 30, 2021, the Company had \$63,294,878 in cash and cash equivalents as compared to cash and cash equivalents of \$12,935,860 at December 31, 2020. The Company is dependent on the profitable commercialization of its products or obtaining additional debt, equity or other forms of financing to fund ongoing operations until profitability is achieved.

The Company monitors its cash flow on a monthly basis and compares actual performance to the budget for the period. The Company may obtain additional debt, equity or other forms of financing in future periods. Further into the future the Company is dependent on the profitable commercialization of its products or obtaining additional debt, equity or other forms of financing to fund ongoing operations until profitability is achieved.

On February 12, 2021 the Company received aggregate gross proceeds of \$72 million from the February 2021 Financing (see Note 17). The proceeds from the February 2021 Financing could be sufficient to extend the operations of the Company for up to three years at the current burn rate. However, it is possible that the Company will initiate programs that were on hold given past cash constraints and that the cash needs of the Company will increase, shortening the time the proceeds will meet the requirements of the Company.

Trade payables were aged as follows as at June 30, 2021 and do not include accrued liabilities. All trades payables are current liabilities:

	<u>Total</u>
Current	\$ 1,122,673
31-60 days	241,625
Over 60 days	5,381
	<u>\$ 1,369,679</u>

The following is an analysis of the contractual maturities of the Company's non-derivative accrued liabilities as at June 30, 2021:

	<u>Within One Year</u>
Collaboration, license and settlement agreements (undiscounted)	\$ 1,250,000
	<u>\$ 1,250,000</u>

5. FINANCIAL RISK MANAGEMENT (continued)

(e) Credit risk

Credit risk arises from the possibility that the entities to which the Company sells products may experience financial difficulty and be unable to fulfill their contractual obligations. This risk is mitigated by proactive credit management policies that include regular monitoring of the debtor's payment history and performance. The Company does not require collateral from its customers as security for trade accounts receivable but may require certain customers to pay in advance of any work being performed or product being shipped.

The maximum exposure, if all the Company's customers were to default at the same time is the full carrying value of the trade accounts receivable as at June 30, 2021 is \$573,891 (as at December 31, 2020: \$322,201). As at June 30, 2021, the Company had \$192,262 of trade accounts receivable that were overdue according to the customers' credit terms (as at December 31, 2020: \$146,658). During the three and six months ended June 30, 2021, the Company wrote down \$nil of accounts receivable owed by customers (three and six months ended June 30, 2020: \$nil).

The Company may also have credit risk related to its cash and cash equivalents and restricted cash, with a maximum exposure of \$63,778,592 as at June 30, 2021 (as at December 31, 2020: \$13,406,320). The Company minimizes its risk to cash and cash equivalents and restricted cash by maintaining the majority of its balances with Canadian Chartered Banks.

16. DERIVATIVE WARRANT LIABILITY FROM FINANCING AND CONVERTIBLE NOTE

(a) Derivative Warrant Liability from Financing

On November 17, 2017, Neovasc completed an underwritten public offering (the "2017 Public Transaction") of 6,609,588 Series A units (the "Series A Units") and 19,066,780 Series B units (the "Series B Units") of the Company, at a price of \$1.46 per Unit for gross proceeds of \$37,487,497 before deducting the underwriting discounts and commissions and other estimated offering costs.

Each Series A Unit was comprised of:

- (i) 0.001 Common Share
- (ii) one Series A Common Share purchase warrant of the Company exercisable for 0.001 Common Shares at an exercise price of \$1,610 per Series A Warrant Share for a period of five years following issuance (each, a "Series A Warrant"),
- (iii) one Series B Common Share purchase warrant of the Company exercisable for 0.001 Common Shares at an exercise price of \$1,610 per Series B Warrant Share for a period of two years following issuance (each, a "Series B Warrant"); and
- (iv) 0.40 Series C Warrant of the Company to purchase a unit at an exercise price of \$1.46 per unit for a period of two years following issuance (each, a "Series C Unit") comprised of 0.001 Common Shares, one Series A Warrant and one Series B Warrant.

Each Series B Unit was comprised of:

- (i) either 0.001 Common Shares or one Series D Common Share purchase warrant of the Company exercisable for 0.001 Common Shares (each, a "Series D Warrant") at an exercise price of \$1,460 per Series D Warrant Share, all of which were pre-funded except for a nominal exercise price of \$0.001 per Series D Warrant Share for a period of five years following issuance,
- (ii) one Series A Warrant,
- (iii) one Series B Warrant,
- (iv) 0.40 Series C Warrant, and
- (v) 1.1765 Series F Common Share purchase warrant of the Company with each warrant exercisable for 0.001 Common Shares at an exercise price of \$1,610 per Series F Warrant Share for a period of two years following issuance (each, a "Series F Warrant").

15,493 Common Shares and 3,573,830 Series D Warrants were issued as part of the Series B Unit. Since initial issuance and during the period up to December 31, 2018, all of the 3,573,830 Series D Warrants were exercised for gross proceeds of \$35,738 and 3,573 Common Shares were issued from treasury. All the warrants (collectively, the "2017 Warrants") issued pursuant to the 2017 Public Transaction and the 2017 Private Placement (as defined below) included various price adjustment clauses, some of which caused the number of shares to be issued upon exercise to be variable, and therefore do not meet the fixed for fixed test under IAS 32 – Financial instruments; presentation. Accordingly, the warrants have been accounted for as derivative financial liabilities and measured at fair value through profit and loss ("FVTPL"). The fair values of the warrants were calculated using a binomial option pricing model and have been classified as level 3 in the fair value hierarchy.

The total fair value of the warrants issued in connection with the 2017 Public Transaction, together with the Series E Warrants (as defined below) issued in connection with the Private Transaction (as defined below), was \$89,470,273 which exceeded the transaction price giving rise to a loss of \$45,132,259. Since the fair values of the derivatives were not determined using a valuation that only used data from observable markets, the loss on initial recognition has been recognized in income over the expected term of the instruments on a straight-line basis depending on the term of the warrants.

(b) 2017 Convertible Notes

On November 17, 2017, the Company also completed a brokered private placement (the "2017 Private Placement" and together with the 2017 Public Transaction the "2017 Financings") for the sale of \$32,750,000 aggregate principal amount of senior secured convertible notes of the Company (the "2017 Notes") and Series E warrants (the "Series E Warrants") to purchase one Common Share per Series E Warrant for gross proceeds of \$27,837,500.

The 2017 Notes were issued with an original issue price of \$850 per \$1,000 principal amount of note. The 2017 Notes have an 18-month term and carry an interest rate of 0.0% per annum (increasing to 15% upon an event of default) from the closing date of the Private Transaction ("Private Transaction"). On September 12, 2018, the Company and the holders of 2017 Notes amended certain terms of the 2017 Notes, including a one-year extension of the maturity date of the 2017 Notes from May 17, 2019 until May 17, 2020 and certain other amendments. Upon any event of a default, the interest rate applicable to the 2017 Notes would automatically be increased to 15% per annum. Interest on the 2017 Notes, as applicable, will commence accruing on the date of issue, will be computed on the basis of a 360-day year and twelve 30-day months and became payable in cash on January 1, 2018 and on the first day of each calendar quarter thereafter up to, and including, the maturity date.

16. DERIVATIVE WARRANT LIABILITY FROM FINANCING AND CONVERTIBLE NOTES (continued)

(b) 2017 Convertible Notes (continued)

The conversion option contained within the 2017 Notes contains similar price adjustment characteristics to certain of the warrants, which precludes the 2017 Notes from being recognized within equity. The 2017 Notes contain a future-priced conversion mechanism that allows the holder of a 2017 Notes to replace the conversion price then in effect with a price (the "Alternate Conversion Price") that is 85% of the lowest volume weighted average price ("VWAP") of the Common Shares during the ten consecutive trading day period ending and including the date of delivery of the applicable conversion notice. The 2017 Notes are also subject to full ratchet anti-dilution provisions in certain circumstances.

Accordingly, the Company has elected to measure the 2017 Notes at FVTPL. The Series E Warrants are also classified as derivative financial liabilities and measured at FVTPL. The fair values of the warrants were calculated using a binomial option pricing model and have been classified as level 3 in the fair value hierarchy. The fair value of the convertible debt was \$26,100,900 which exceeded the transaction price giving rise to a loss of \$5,113,917. Since the fair value of the convertible debt is not determined using a valuation that only uses data from observable markets, the loss on initial recognition has been deferred and will be recognized in income over the expected term of the instrument. As at December 31, 2020 the loss on initial recognition was fully amortized.

On May 26, 2020, the Company made a final payment of \$2,897,000 to holders of the 2017 Notes and \$1,016,000 in 2017 Notes was converted for the issuance of 500,014 Common Shares. The Company and certain holders of the 2017 Notes have also agreed to a mutual release (the "Settlement") in return for the issuance by the Company, in the aggregate, of 500,000 Settlement Warrants to such holders.

(c) 2019 Convertible Notes

On May 16, 2019, the Company completed a private placement of (i) 15% original issue discount convertible notes ("2019 Notes") with a face value of \$11.5 million, for gross proceeds to the Company of \$9,775,000, and (ii) 334,951 Common Shares of the Company at a price of \$5.15 per Common Share, for gross proceeds to the Company of \$1,725,000.

The 2019 Notes have the following key terms:

- For the first year after the closing date, interest at a rate of 8% of which 5% is payable in cash on or about May 17, 2020 (when the existing 2017 Notes issued by the Company mature). The remainder is deferred and will be due on maturity of the 2019 Notes.
- After the first year and until maturity, interest at a rate of 10% of which 7% is payable in cash at the end of May and November each year. The remainder is deferred and will be due on maturity of the 2019 Notes.
- The 2019 Notes were issued at an original discount of \$1.725 million. A separate subscription for Common Shares of the Company by the holder of the 2019 Notes was made for this amount (at market price) concurrent with the issuance of the 2019 Notes.
- The Company has a prepayment option whereby it may voluntarily prepay the 2019 Notes prior to maturity. Prepayment penalties of 3% (if prepaid prior to the 1st anniversary of issuance), 2% (if prepaid between the 1st and 2nd anniversaries of issuance) and 1% (if prepaid after the 2nd anniversary) apply.
- The 2019 Notes are convertible into Common Shares of the Company at the option of the holder (however, the holder may not own > 19.99% of the total outstanding Common Shares of the Company as a result of the conversion). The conversion price fluctuates from \$7.50 per common share (prior to the 2nd anniversary of issuance) to \$8.50 between the 2nd and 3rd anniversaries of issuance to \$9.70 after the 3rd anniversary of issuance. The conversion price would also be altered subject to certain anti-dilution provisions.

Accordingly, the 2019 Notes contain two embedded derivatives: the conversion option and the prepayment option. Accordingly, the Company has elected to measure the 2019 Notes at FVTPL. The fair values of the 2019 Notes were calculated using the Cox Ross Rubinstein binomial tree model and have been classified as level 3 in the fair value hierarchy.

16. DERIVATIVE WARRANT LIABILITY FROM FINANCING AND CONVERTIBLE NOTES (continued)

(d) 2020 Convertible Notes

On May 28, 2020, the Company issued senior secured convertible notes ("2020 Notes") with a principal amount of \$5 million, convertible at \$2.815 per Common Share for 1,776,041 Common Shares and 2,573,959 Warrants ("May 2020 Warrants") exercisable at \$2.634 per 2020 Warrant with a 4-year term.

The 2020 Notes have the following key terms:

- The 2020 Notes will bear interest at the rate of 8% computed on the basis of a 360-day year and twelve 30-day months and shall be payable in additional 2020 Notes on the date that is six-months after issuance and on each six-month period thereafter up to, and including, the maturity date.
- The 2020 Notes will have a maturity date of 48 months after issuance with the holder's option for early redemption at 24 months.
- Change of control redemption option with option premia of 125% in the first year, 115% in the second year, 105% in the third year, and 100% thereafter.
- The 2020 Notes are convertible into Common Shares of the Company at the option of the holder (however, the holder may not own greater than 9.99% of the total outstanding Common Shares of the Company as a result of the conversion).
- The conversion option caused the number of shares to be issued upon exercise to be variable, and therefore do not meet the fixed of fixed test under IAS 32- Financial instruments – presentation.

Accordingly, the 2020 Notes contain three embedded derivatives: change in control redemption option, the early redemption option and the conversion option but will not be separated from the host debt instrument and the entire hybrid contract will be designated as at fair value through profit or loss. The fair values of the 2020 Notes and 2020 Warrants were calculated using the Cox Ross Rubinstein binomial tree model and have been classified as level 3 in the fair value hierarchy. The fair value of the convertible debt was \$6,449,634 which exceeded the transaction price giving rise to a loss of \$3,511,670. Since the fair value of the convertible debt is not determined using a valuation that only uses data from observable markets, the loss on initial recognition has been deferred and will be recognized in income over the expected term of the instrument.

17. SHARE CAPITAL

All Common Shares are equally eligible to receive dividends and the repayment of capital and represent one vote at shareholders' meetings. All Preferred Shares have no voting rights at shareholders' meetings but on liquidation, winding-up or other distribution of the Company's assets are entitled to participate in priority to Common Shares. There are no Preferred Shares issued and outstanding.

(a) Authorized

Unlimited number of Common Shares without par value.

Unlimited number of Preferred Shares without par value.

We may issue our Preferred Shares from time to time in one or more series. The terms of each series of Preferred Shares, including the number of shares, the designation, rights, preferences, privileges, priorities, restrictions, conditions and limitations, will be determined at the time of creation of each such series by our board of directors, without shareholder approval, provided that all Preferred Shares will rank equally within their class as to dividends and distributions in the event of our dissolution, liquidation or winding-up.

All share and per share amounts are net of share issuance costs and have been adjusted to retroactively reflect the impact of the September 18, 2018 reverse stock split on a 1 for 100 basis and the June 25, 2019 reverse stock split on a 1 for 10 basis.

(b) Stock options

The Company adopted an equity-settled stock option plan under which the directors of the Company may grant options to purchase Common Shares to directors, officers, employees and service providers (the “optionees”) of the Company on terms that the directors of the Company may determine within the limitations set forth in the stock option plan. Effective June 4, 2018, at the Annual General Meeting (“AGM”), the board of directors and shareholders of the Company approved an amendment to the Company’s incentive stock option plan to increase the number of options available for grant under the plan to 15% of the number of Common Shares of the Company outstanding at any time.

Options under the Company’s stock option plan granted to directors, officers and employees vest immediately on the grant date, unless a vesting schedule is specified by the board. The directors of the Company have discretion within the limitations set forth in the stock option plan to determine other vesting terms on options granted to directors, officers, employees, and others. The minimum exercise price of a stock option cannot be less than the applicable market price of the Common Shares on the date of the grant and the options have a maximum life of ten years from the date of grant. The following table summarizes stock option activity for the respective years as follows:

	Number of options	Weighted average exercise price	Average remaining contractual life (years)
Options outstanding, January 1, 2020	1,051,665	\$ 20.63	7.09

(d) Restricted share units

On December 2, 2019, the Company adopted a Restricted Share Unit ("RSU") Plan which provides for RSUs to be awarded to directors, officers, employees and service providers. The maximum number of Common Shares authorized and reserved for issuance under the RSU Plan is equal to 5% of the issued and outstanding Common Shares of the Company. The shareholders of the Company approved the amended RSU Plan at the annual meeting of the shareholders on September 3, 2020, which falls within 12 months of the effective date of the RSU Plan.

The granting of RSUs is considered an equity-settled share-based payment transaction. The fair value of the grant was determined by multiplying the Company's share price at the grant date by the number of RSUs granted and is recognized over the vesting period of the grant. The expense recognized for the three and six months ended June 30, 2021, was \$433,098 and \$1,426,849 (three and six months ended June 30, 2020: \$219,830 and \$365,320). As at June 30, 2021, the total remaining unrecognized compensation cost related to RSUs amounted to approximately \$2,519,466 which will be amortized over the remaining vesting periods.

(e) Share appreciation rights

On September 22, 2020, the Company adopted a Share Appreciation Rights ("SAR") Plan which provides for SARs to be awarded to directors, officers, employees and service providers. The granting of SARs is considered a cash-settled payment transaction. The fair value of the SAR is measured applying an option pricing model, taking into account the terms and conditions on which the SARs are granted. The liability of the SAR is measured initially at grant date and at the end of each reporting period until settled. The fair value of the SAR as of June 30, 2021, is \$4,962,060 which will be recorded over the vesting period of the SAR. The expense recognized for the three and six months ended June 30, 2021, was \$1,198,036 and \$1,382,000 (three and six months ended June 30, 2020: \$nil).

SAR transactions are summarized as follows:

	Number of SARs	Weighted Average Grant Date Fair Value Per Share
Outstanding, January 1, 2020	-	-
Granted	1,811,768	\$0.185
Outstanding, December 31, 2020	1,811,768	\$0.185

(f) Warrants

On January 6, 2020, the Company completed a registered direct offering of an aggregate of 1,185,000 series A units ("Series A Units") and 1,241,490 series B units ("Series B Units"): Series B Units at a price of \$4.1351 per Series A Unit and \$4.135 per Series B Unit for aggregate gross proceeds to the Company of approximately \$10,000,000. Each Series A Unit consists of one Common Share of Neovasc and one warrant ("January 2020 Warrant"). Each January 2020 Warrant entitles the holder to acquire one Common Share of Neovasc at a price of US\$4.1351 at any time prior to four years following the date of issuance. Each Series B Unit consists of one pre-funded warrant ("Pre-Funded Warrant") of Neovasc and one January 2020 Warrant. Each Pre-Funded Warrant entitles the holder to acquire one Common Share of Neovasc at a price of US\$0.0001 at any time until the exercise in full of each Pre-Funded Warrant.

All Pre-Funded Warrants were exercised as at December 31, 2020. The January 2020 Warrants include a cashless exercise option which is effective only if the Company does not have an effective registration statement in the United States at the time of the exercise. In accordance with IAS 32 – Financial instruments; presentation, the January 2020 Warrants have been accounted for as derivative financial liabilities and measured at FVTPL. The fair value of \$6,145,620 for the January 2020 Warrants and Pre-Funded Warrants was computed using the Black-Scholes pricing model with the following assumptions: a) average risk-free interest rate of 1.60%; b) expected life of 1 years; c) the price of the stock on the grant date of \$3.47; d) expected volatility of 70%; and e) no expected dividend payments.

(f) Warrants (continued)

On May 28, 2020, the Company issued an aggregate of 672,937 Exchange Shares for the surrender and cancellation of 2,176,490 January 2020 Warrants outstanding on the basis of approximately 0.3092 of an Exchange Share for each warrant. Subsequent to the exchange, 250,000 January 2020 Warrants remain outstanding.

On May 26, 2020, the Company granted 2,573,959 warrants with an exercise price of \$2.634 and term of 4 years (“the May 2020 Warrants”). The May 2020 Warrants are convertible into Common Shares of the Company at the option of the holder (however, the holder may not own greater than 9.99% of the total outstanding Common Shares of the Company as a result of the conversion). The May 2020 Warrants include a cashless exercise option which is effective only if the Company does not have an effective registration statement in the United States at the time of the exercise. In accordance with IAS 32 – Financial instruments; presentation, the May 2020 Warrants have been accounted for as derivative financial liabilities and measured at FVTPL. The fair values of \$4,526,732 of the May 2020 Warrants were calculated using a binomial option pricing model and have been classified as level 3 in the fair value hierarchy. On July 23, 2020 1,424,049 May 2020 Warrants were exercised and on August 17, 2020 501,000 May 2020 Warrants were exercised leaving 648,910 May 2020 Warrants remaining. The total exercise proceeds of \$4,877,225 net of interest and prepayment penalty has been applied to the principal of the 2019 Note.

On May 28, 2020 the Company entered into a settlement agreement to issue 500,000 settlement warrants (“2020 Settlement Warrants”). Each Settlement Warrant entitles the holder to purchase one Common Share in the capital of the Company at an exercise price of \$2.634 per Settlement Warrant for a period of 4 years following issuance and are subject to transfer/leak-out restrictions, including volume and public float restrictions. The 2020 Settlement Warrants include a cashless exercise option which is effective only if the Company does not have an effective registration statement in the United States at the time of the exercise. In accordance with IAS 32 – Financial instruments; presentation, the 2020 Settlement Warrants have been accounted for as derivative financial liabilities and measured at FVTPL. The fair value of \$807,977 of the 2020 Settlement Warrants were calculated using the Cox Ross Rubinstein binomial tree model and have been classified as level 3 in the fair value hierarchy.

On June 16, 2020, the Company completed a registered direct offering of an aggregate 3,883,036 units (the “June 2020 Units”) at a price of \$2.973 per unit for aggregate gross proceeds to the Company of approximately \$11,500,000 less \$1,215,274 in underwriting commission, a \$162,467 fair value charge for compensation warrants “June 2020 Compensation Warrants” (see Note 17 (a)), and \$278,482 in other share issuance costs. Each June 2020 Unit consists of one Common Share of the Company and three-quarters of one warrant (each whole warrant, a “June 2020 Warrant”) to purchase one Common Share issuing 2,912,277 June 2020 Warrants in total. Each June 2020 Warrant entitles the holder to acquire one Common Share of the Company at a price of \$2.88 at any time prior to June 16, 2025. The June 2020 Warrants include a cashless exercise option which is effective only if the Company does not have an effective registration statement in the United States at the time of the exercise. In accordance with IAS 32 – Financial instruments; presentation, the June 2020 Warrants have been accounted for as derivative financial liabilities and measured at FVTPL. The fair value of \$2,404,957 for the June 2020 Warrants was computed using the Black-Scholes pricing model with the following assumptions: a) average risk-free interest rate of 0.32%; b) expected life of 2 years; c) the price of the stock on the grant date of \$2.47; d) expected volatility of 70%; and e) no expected dividend payments.

On July 23, 2020, the Company issued repayment warrants (“July 2020 Repayment Warrants”) to purchase up to 481,778 Common Shares at an exercise price of \$7.50 per Common Share at any time prior to July 23, 2025. The exercise price is adjusted as the conversion price of the 2019 Note is adjusted. The fair value of \$134,718 for the July 2020 Repayment Warrants was computed using the Black-Scholes pricing model with the following assumptions: a) average risk-free interest rate of 0.29%; b) expected life of 2 years; c) the price of the stock on the grant date of \$2.54; d) expected volatility of 70.0%; and e) no expected dividend payments.

21. LOSS PER SHARE

Both the basic and diluted loss per share have been calculated using the loss attributable to shareholders of the Company as the numerator. The weighted average number of Common Shares outstanding used for basic loss per share for the three and six months ended June 30, 2021, amounts to 67,509,361 and 39,768,556 (three and six months ended June 30, 2020: 12,219,739 and 11,575,925).

	For the three months ended		For the six months ended

Weighted average number of Common Shares	67,509,361	12,219,739	39,768,556	11,575,925
Loss for the period	\$ (9,033,014)	\$ (9,925,315)	\$ (11,200,429)	\$ (14,036,906)
Basic and diluted loss per share	\$ (\$0.13)	\$ (0.81)	\$ (\$0.19)	\$ (1.21)

Instruments that could potentially have a dilutive effect on the Company's weighted average shares outstanding include all of the outstanding convertible notes, restricted share units, stock options, stock appreciation rights, and warrants. These instruments are currently excluded from the calculation of diluted earnings per share as they are antidilutive for the periods presented.

22. RELATED PARTY TRANSACTIONS

The Company's key management personnel include members of the board of directors, executive officers, and former executive officers. The Company provides salaries or cash compensation, and other non-cash benefits to directors and executive officers.

23. CONTINGENT LIABILITIES AND PROVISIONS

Litigation

Litigation resulting from third party claims has been, and may be, costly and time-consuming and could divert the attention of management and key personnel from our business operations. Although we intend to vigorously defend ourselves against any pending claims, and future claims that may occur, we cannot assure that we will succeed in appealing and defending any of these claims and that judgments will not be upheld against us. If we are unsuccessful in our appeal and defense of these claims or unable to settle the claims in a manner satisfactory to us, we may be faced with significant loss of intellectual property rights that could have a material adverse effect on the Company and its financial condition.

Claims by CardiAQ in Germany

On June 23, 2014, Edwards Lifesciences CardiAQ LLC ("CardiAQ") filed a complaint against Neovasc in Munich, Germany (the "German Court") requesting that Neovasc assign its right to one of its European patent applications to CardiAQ. After a hearing held on December 14, 2016, the German Court rendered its decision on June 16, 2017, granting co-ownership of the European patent application to CardiAQ but denying their claim for full entitlement. On July 14, 2017, Neovasc filed a notice of appeal against the German Court's decision with the Appeals Court of Munich (the 'Appeals Court'). On July 20, 2017, CardiAQ filed a notice of appeal with the same court. The decision of the Appeals Court of Munich was rendered on March 21, 2019, wherein it amended the decision of the German Court and dismissed the complaint of CardiAQ in full. On March 30, 2020, the German Supreme Court granted CardiAQ leave to appeal the Appeals Court decision and at a hearing held on August 4, 2020 the German Supreme Court set aside the prior decision of the Appeals Court and remanded the matter back to the Appeals Court for a new hearing and decision. The hearing at the Appeals Court was held on February 25, 2021.

On May 20, 2021, the Appeals Court has upheld the first instance judgment of the German Court of June 16, 2017, in which the court had found that CardiAQ had contributed in part to the invention of the Tiara and awarded to CardiAQ co-entitlement rights to the disputed Tiara European patent application. There are no monetary awards associated with these matters (except for a decision on the statutory costs of the proceedings) and no damages award was recognized. Regarding the statutory costs of the proceedings, both parties bear 50% of the costs of the appeal proceedings before the Appeals Court. Neovasc bears the costs of the 2nd appeal proceedings before the German Supreme Court. Neovasc has not appealed this decision so as to preserve capital and move forward with our new strategic activities. The decision is now final.

Claims by CardiAQ in the United States

On March 24, 2017, CardiAQ filed a related lawsuit in the in the U.S. District Court for the District of Massachusetts (the "Court"), asserting two claims for correction of patent inventorship as to Neovasc's U.S. Patents Nos. 9,241,790 and 9,248,014. On October 4, 2017, CardiAQ amended its pleading to add a third claim for correction of patent inventorship as to Neovasc's U.S. Patent No. 9,770,329. The lawsuit did not seek money damages and would not have prevented the Company from practicing these patents. The Company moved to dismiss the complaint on November 16, 2017, and the Court denied this motion on September 28, 2018. On April 17, 2019, the Company resolved the three claims for correction of patent inventorship and, without reaching conclusion on the merits of the claims, the parties agreed to the correction of patent inventorship and added co-inventors to the three patents in question. Each party will bear its own costs. There were no monetary awards associated with these matters and no damages award was recognized.

23. CONTINGENT LIABILITIES AND PROVISIONS (continued)

Other Matters

By way of Amended Statement of Claim in Federal Court of Canada Action T-1831-16 (the "Action"), Neovasc Inc. and Neovasc Tiara Inc. (the "Neovasc Defendants") were added as defendants to an existing action commenced by Edwards Lifesciences PVT, Inc. and Edwards Lifesciences (Canada) Inc. (collectively the "Edwards Plaintiffs") against Livanova Canada Corp., Livanova PLC, Boston Scientific and Boston Scientific Ltd. (collectively, the "BSC/Livanova Defendants"). The Action was first filed in October 2016 and first concerned an allegation by the Edwards Plaintiffs that the manufacturing, assembly, use, sale and export of the Lotus Aortic Valve devices by the BSC/Livanova Defendants infringes on the Edwards Plaintiffs' patents. In February 2017, the Neovasc Defendants were added to the Edwards Plaintiffs' claim making related allegations. On January 22, 2019, the Company announced that pursuant to a settlement reached with the Edwards Plaintiffs, the patent infringement action that the Edwards Plaintiffs had previously commenced in the Federal Court of Canada against the Neovasc Defendants, Boston Scientific and Livanova, has been dismissed on a no-costs basis. No damages award was recognized.

On August 3, 2018, the Company announced that it had entered into a collaboration and licensing agreement with Penn Medicine and the Gorman Cardiovascular Research Group at the University of Pennsylvania (collectively, "UPenn"), which resolved certain potential claims against the Company that had been previously disclosed. The collaboration and licensing agreement with UPenn contemplates certain fees being paid by Neovasc to UPenn, including fees in installments totaling \$2.65 million over the four years following the agreement's execution. In addition, Neovasc agreed to pay UPenn a royalty of 1.0-1.5% on the annual net sales of the Tiara following the first commercial sale of the Tiara. Also contained in the collaboration and licensing agreement are buy-out clauses that allow Neovasc, or an acquirer of Neovasc or the Tiara assets, to buy out these royalty obligations. As part of the collaboration and licensing agreement, certain potential claims against the Neovasc Defendants were resolved.

When the Company assesses that it is more likely that a present obligation exists at the end of the reporting period and that the possibility of an outflow of economic resources embodying economic benefits is probable, a provision is recognized and contingent liability disclosure is required. The Company has accrued \$495,653 as at June 30, 2021 representing the discounted value of future payments anticipated under the settlement agreement with UPenn. The Company has not accrued for any future royalty payments in the settlement agreement with UPenn as the amounts are undeterminable at this time.

On September 7, 2018, Endovalve Inc. and Micro Interventional Devices, Inc. (collectively, "Endovalve") filed a complaint in the United States District Court for the District of New Jersey against the Neovasc Defendants, alleging claims for trade secret misappropriation, breach of contract, and unfair competition. Endovalve alleged that it was a former customer of Neovasc Inc., and that the Neovasc Defendants improperly used trade secrets in the development of Tiara. The complaint sought injunctive relief, money damages, and attorneys' fees. On February 20, 2019, the Company announced that it had entered into a settlement agreement with Endovalve. The settlement agreement with Endovalve contemplates certain fees being paid by Neovasc to Endovalve, including settlement fees in installments totaling \$3 million over the two and a half years following the agreement's execution. In addition, Neovasc agreed to pay Endovalve a royalty of 1.3% on the annual net sales of the Tiara following the first commercial sale of the Tiara. Also contained in the settlement agreement are buy-out clauses that allow Neovasc, or an acquirer of Neovasc or the Tiara assets, to buy out these royalty obligations. As part of the settlement agreement, the claims against the Neovasc Defendants were dismissed with prejudice.

When the Company assesses that it is more likely that a present obligation exists at the end of the reporting period and that the possibility of an outflow of economic resources embodying economic benefits is probable, a provision is recognized and contingent liability disclosure is required. The Company has accrued \$741,416 as at June 30, 2021 representing the discounted value of future payments anticipated under the settlement agreement with Endovalve. The Company has not accrued for any future royalty payments in the settlement agreement with Endovalve as the amounts are undeterminable at this time.

Shareholder Litigation

On November 5, 2020, a putative shareholder class action lawsuit was filed in the United States District Court for the Southern District of New York against Neovasc Inc. ("Neovasc"), Fred Colen, Neovasc's CEO, and Christopher Clark, Neovasc's CFO: *Gonzalez v. Neovasc Inc., et al.*, Case No. 7:20-cv-09313 (S.D.N.Y.) (the "Gonzalez Action"). The complaint in the Gonzalez Action purports to bring suit on behalf of a class consisting of all persons and entities that purchased or otherwise acquired Neovasc securities between November 1, 2019 and October 27, 2020, inclusive. On November 25, 2020, a second putative shareholder class action lawsuit was filed in the United States District Court for the Southern District of New York against Neovasc and Messrs. Colen and Clark: *Siple v. Neovasc Inc., et al.*, Case No. 1:20-cv-09948 (S.D.N.Y.) (the "Siple Action"). The complaint in the Siple Action purports to bring suit on behalf of a class consisting of all persons and entities that purchased or otherwise acquired Neovasc securities between October 10, 2018 and October 27, 2020, inclusive.

23. CONTINGENT LIABILITIES AND PROVISIONS (continued)

Shareholder Litigation (continued)

The complaints in both the Gonzalez Action and the Siple Action contain similar allegations that the defendants made materially false and/or misleading statements, as well as failed to disclose material adverse facts about Neovasc's business, operations, and prospects. Specifically, the complaints' allegations relate to the premarket approval process with the U.S. Food and Drug Administration for Neovasc's Reducer medical device for the treatment of refractory angina. Both complaints assert the same two causes of action: (i) a violation of Section 10(b) of the Securities Exchange Act of 1934 ("Exchange Act") and Rule 10b-5 promulgated thereunder against all defendants; and (ii) a violation of Section 20(a) of the Exchange Act against Messrs. Colen and Clark.

On January 26, 2021, the court issued an order consolidating the Gonzalez Action and the Siple Action under a new case style: In re Neovasc Inc. Securities Litigation, Case No. 7:20-cv-09313 (S.D.N.Y.) (the "Consolidated Action"). The order also appointed Pratap Golla as Lead Plaintiff and the law firms of Pomerantz LLP and Holzer & Holzer LLC as Co-Lead Counsel for the Class in the Consolidated Action. The order further directed Lead Plaintiff to file a Consolidated Amended Complaint in the Consolidated Action. On March 19, 2021, Lead Plaintiff filed a Consolidated Amended Complaint.

The Consolidated Amended Complaint names Neovasc, Messrs. Colen and Clark, Bill Little, and Shmuel Banai as defendants. The Consolidated Amended Complaint purports to bring suit on behalf of a class consisting of all persons and entities that purchased or otherwise acquired Neovasc securities between October 10, 2018 and January 15, 2021, inclusive. The Consolidated Amended Complaint contains allegations similar to the complaints in the Gonzalez Action and the Siple Action and asserts the same two causes of action: (i) a violation of Section 10(b) of the Exchange Act and Rule 10b-5 promulgated thereunder against all defendants; and (ii) a violation of Section 20(a) of the Exchange Act against Messrs. Colen, Clark, Little, and Banai.

Defendants obtained permission to file a motion to dismiss the Consolidated Amended Complaint, which they served on June 14, 2021. Plaintiff served its opposition to the motion to dismiss on July 17, 2021. Defendants' reply in support of their motion to dismiss was served on August 6, 2021.

24. SUBSEQUENT EVENTS

On July 13, 2021, the Company announced that it has appointed Lisa Becker as Vice President, Regulatory Affairs, Global Angina Therapies and Sarah Gallagher as Vice President, Clinical Affairs.
